**SHCTC Inc. Check Policy:** All checks or money orders must be made payable in US Funds and drawn on US banks. Returned checks or money orders do not constitute payment for goods and/or services. All returned checks will be charged a \$30.00 returned check fee. Repeated returned checks and/or failure to repay debts to SHCTC Inc will result in being placed on "cash only" basis with the Club. Any payment received by SHCTC for any purpose, from any individual, group, or business with an outstanding debt to the Club, will first be applied to any outstanding debt. What this means, for example, is if your check to the Club for \$6.00 for a marked catalog is returned, you will be assessed an additional \$30.00 return check fee; and your resulting debt to the Club will be \$36.00. If you fail to pay this debt, but attempt to enter the trial, and send a check for \$56.00, \$36.00 from that entry check will first be applied to pay off your outstanding debt, leaving \$20.00 for the entry. In order for your entry to be accepted and processed, you will need to submit an additional \$36.00.

**Fanciers Residing Outside the US:** Please note that checks MUST be payable in US dollars and MUST be drawn on US banks, or they will not be accepted.

**Fanciers wishing to pay via Pay Pal will be charged a \$2 handling fee per entry. See below.**

## **Basic Information about AKC Fast Cat**

- 1) Fast CAT Test is a timed, straight 100-yard dash for dogs. It is meant to be a fun and healthy activity of interest to any dog owner.
- 2) Dogs run singularly.

## **How are Fast CAT Points and Titles Awarded?**

- 1) The dog's time to complete the 100-yard dash is converted into MPH.
- 2) A handicap system is applied to a dog's MPH to determine the number of points earned. The handicap system is based on the height of the dog at its withers.
  - a) 18 inches or greater = handicap of 1.0
  - b) 12 inches to less than 18 inches = handicap of 1.5
  - c) Below 12 inches = handicap of 2.0
- 3) Points = MPH multiplied by the dog's handicap
- 4) Fast CAT titles are suffix titles earned at designated milestones.

BCAT = 150 points

DCAT = 500 points

FCAT = 1,000 points

FCAT# = every additional 500 points

- 5) The top 20 fastest dogs by breeds are published on the AKC website.

## **Course and Equipment**

- 1) **Safety:** Safety is of utmost importance. It is the responsibility of the event committee to ensure the safety of the course, equipment and conduct of those involved with the event. It is recommended that the event committee run a test dog prior to the start of the event to ensure that the equipment functions properly and all personnel understand their jobs. Prior to moving the lure to position it for the start, the lure operator shall announce "hold your dogs" in order to caution owners.
- 2) **The Finish:** The club must provide enough room for a safe run-out area. SHCTC will attempt to use a minimum of 50 yards. It is recommended an owner or someone familiar with the dog be at the finish in order to catch the dog once the course is completed. SHCTC will attempt to provide assistance at the end of the course to collect the dogs if the owner requests it.
- 3) **Timing Devices:** SHCTC will use electronic timers. The time to complete the 100-yard dash is recorded to the nearest 1/100th of a second. The time starts when any part of the dog breaks the electronic beam at the start line. The time stops when any part of the dog crosses the finish line. Stop watches will be used as a backup if the electronic timers don't function. In the event of manual timing, a starter's flag will

signal the start when the dog's nose crosses the starting line and the time will be recorded by two timekeepers, each operating individually, at the finish line. The time will be the mathematical average of the two manually recorded times.

4) **Lure Equipment:** SHCTC uses a continuous loop system. The lure is propelled by a CONTINUOUS LOOP SYSTEM whereby the lure, consisting of a plastic lure dragged along the ground in front of the dog by a take-up reel. Safety is the number one consideration in running this event.

5) **Field Conditions.** The field is reasonably flat, level and mowed. The actual running area is approximately 150 yards long x 5 yards wide, with a snow fence barrier. The release line is ten feet behind the starting line. The course is 100 yards long with finish line timers (electronic and manual) and a 50-yard run-out area. Handlers may not walk the course with their dogs during the actual test, but they may walk the course to the catch area **BEFORE** their dog is released.

6) The **huntmaster** has control of the course. The huntmaster is in charge of all dogs and handlers on the field, shall ensure handlers understand safe release and retrieval procedures, shall ensure the lure is properly positioned, shall ensure the lure operator, timers and starting line signal person are ready, shall signal the lure operator to start the lure and shall give the verbal signal "tallyho" to release the dog.

7) **For handlers with multiple entrants:** Please indicate that your dogs should be separated in the running order.

8) **Check in and Inspection:** Dogs must be checked in and inspected prior to each run. Inspection will check for general fitness and for females in season, which are not permitted to run. In addition, the dog's handicap must be verified at the time of inspection. You will receive a card at inspection that will be turned in to the Paddock Master.

9) **At the line:** The Paddock Master will coordinate the running of the dogs according to his/her best discretion. Dogs will be called "to the line" and "in the hole" positions. Dogs that are not present "in the hole" will be moved down and the next available dog will be inserted into the running order to keep things moving. The missing dog will be inserted into the running order as convenient when they arrive. So, if you miss your run time, you will not be required to wait until all the dogs have run. You can run, within reason, when you arrive.

10) **Operation of the Lure:** The Lure Operator's job is to 1) ensure a safe run by operating the lure correctly, and 2) to get the best score for your dog. If your dog is new to the sport, tell the Huntmaster! That may mean operating the lure differently, to get his/her attention, as opposed to an experienced dog that needs little to no encouragement. If your dog is particularly fast for its breed, simply advise the Huntmaster about your "Fast Dog." They will tell the lure operator, who will adjust the running of the lure to accommodate this. The lure operator has experience and knowledge related to running various breeds, but every dog is different. We want you to have a good score.

11) **Schedule and Trial Hours:** 9 a.m. until all runs are completed or 4 p.m., whichever comes last. In any event, all entrants present during the posted times will be allowed to run, if conditions are safe. **Handlers MUST check in and turn in card for first run NO LATER than 1:30 p.m.**

## **FUN RUNS!**

Unsure what your dog will think? Come try it out first.

Fun runs will be available on Friday after setup until done.  
Approximately 4 to 6:00 p.m.

\$5 per run

**General:**

1. All entries must be one year of age or older on the day of the test or trial.
2. Dogs not present by the end of the test will be scratched.
3. Each entry will be examined at **inspection**. In the opinion of the inspection committee, any entry found to be lame, unfit to compete or a female in season shall not be allowed to enter and entry fees shall be refunded.
4. Dogs will be inspected before each Event.
5. We will separate the running of multiple dogs handled by a single handler.
6. Dogs may wear any collar except a choker collar, a harness, a collar with prongs or an electronic training collar. The collar should be snug to minimize the chances of getting hung up on something during the run. Owners should be aware that there is a chance that tags hanging from the collar could become entangled on something during the run. Owners may use clips or rubber bands to hold the dog's hair. The owner assumes responsibility for the safety of the dog, with regard to the dog's collar and paraphernalia on the dog.
7. Continuous loop system will be used. Lure is a white plastic bag.
8. The field committee reserves the right to bar known aggressive dogs from the event site.
9. There will be a \$5 fine assessed for any loose dog not taking part in the course in progress, or for anybody caught not picking up after their dog, or leaving garbage on the field.
10. No one will be allowed on the field without the express permission of the field chairman, except the appointed field committee.
11. Anybody exhibiting unsportsmanlike behavior will be excused from the field and may be subject to further disciplinary action.
12. Control of dogs strictly enforced, on leash at all times except when running.
13. Clean up and carry out all trash.
14. Please pick up after your dog and put in receptacles provided at site.

## **SCHEDULE (Quick Check)**

1. A handlers' meeting will be held 30 minutes prior to run start time.
2. All dogs will be inspected for soundness prior to running in a trial beginning at 8:30am, and will continue to be inspected throughout the day.
3. AM and PM run start times are 9:00 am.

**Check-In:** Please check-in for your first run no later than 1:30 p.m.

**Field Hours:** 8:30 am to the conclusion of both events scheduled for the day of the tests.

**Handlers Meeting:** 8:30am for all runs.

**Lunch:** A 30-minute lunch break will be scheduled at the discretion of the Event Committee (12:00 p.m.).

### **Scheduling of Runs / New Concurrent Procedures / Note to Handlers:**

We will be running a first come, first served event. We will be inspecting and running dogs all day. You do not need to be there at the start of the event. Sleep in and come at 10 or 11 to avoid the mad rush at the beginning of the day. Run your dog, wait about an hour, get your dog inspected again and run your dog again and go home.

Any dog not present by the time the test ends will be considered absent.
